

STORAGE APPLICATION

This form is required in addition to a completed Interconnection Application form for any Distributed Energy Resource with an energy storage component. An application to interconnect energy storage is only required for storage designed to operate in parallel with the distribution system. Electric vehicles and backup generators do not need to apply.

If you have any questions regarding this application, please contact the DER Coordinator by calling Stearns Electric at (800) 962-0655.

ENERGY STORAGE:

Application For: Stand-alone storage as DER Storage as Component

Name: _____
First MI Last

Account Number: _____

Address Of Generating Facility: _____
Street City State Zip Code

Equipment Manufacturer: _____

Equipment Model: _____

Max Continuous Real Power (Kw): _____

Max Continuous Apparent Power (kVA): _____

Power Factor Range Of Adjustability: _____

Peak AC Energy (kWh): _____

Is the equipment UL 1741 listed? Yes No
Manufacturer specification sheet(s) are required to be attached to this application.

Is the storage 100% charged by a net energy metering eligible energy source? Yes No

Source(s) charging the storage (check all that apply):

Utility Wind Solar Diesel Other: _____

Is the storage configured to export energy to the Area EPS? Yes No

Are the settings accessible to the end user? Yes No

continued on next page

Available control operating modes:

Control modes being enabled for interconnection:

For non-export, how does the system determine the magnitude of customer load?

What is the process for changing operational modes of the energy storage?

Applicant Signature: _____ **Date:** _____
