Application Check List

- Rebate application with signature
- Itemized project invoices (labor & materials)
- Equipment specifications

The undersigned does hereby certify that the undersigned is solely responsible for the accuracy of the information contained in this application. All rules of the program have been followed and the installation is complete. The undersigned acknowledges that nothing contained in the application imposes any liability on the cooperative for the work performed and information presented by the member, member's engineer, contractor, or vendor. The undersigned also authorized payment of incentive directly to the specified rebate recipient.

Rebate applications due no later than November 18, 2022.

Commercial EV Charging

Rules & Information

Warranty Information

Rebate qualifications do not imply any representation or warranty of such equipment, design or installation by the cooperative. The cooperative shall not be responsible or liable for any personal injury or property damage caused by this equipment. The cooperative does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under this program. In no event shall the cooperative be liable for any incidental or consequential damages.

General Rebate Program Rules

1. Installation must be complete before funds are issued.
2. Members and vendors must submit a copy of the project invoice, completed rebate application, and manufacturer equipment specifications.
3. Project must comply with all program specific rules and qualifications.
4. The member is responsible for checking with the cooperative to determine funding availability and to verify program parameters.
5. All EVSE equipment must be UL or equivalent listed.
6. The rebate shall not exceed 50% of materials cost OR project cost up to \$50,000 per member.

Commercial EV Charging

1. Commercial EV Charging projects require pre-approval. Please contact your cooperative to complete the necessary pre-approval process to confirm eligibility.
2. Rebates are limited to installations of level 2 EVSE equipment and are capped at \$2,500 per charger up to 50% of the project cost.
3. Pay for use applications are ineligible for this rebate.
4. Rebates are available for both purchased and leased (5 year minimum term) level 2 EVSE equipment.
5. DC fast charge (DCFC) installations and equipment are not eligible for this prescriptive rebate. DCFC installations may be eligible for a custom rebate. Please contact your utility for further details.
