He is also an advocate of teaching all employees about safety first. Long-term goals for Stearns Electric include the completion of a new headquarters site to continue supporting Stearns Electric for the next 50-75 years, exploring time-of-use rates and tracking industry trends toward solar, wind and electric vehicles.

"What interests me most about serving on the Board is the desire to learn more about the electric industry and then to turn around and share that knowledge with the members of Stearns Electric."
