

MEMBER ENGAGEMENT GROUP

The Member Engagement Group serves as a member advisory committee to Stearns Electric Association, the Cooperative's Board of Directors and management team. The committee, comprised of members from each of the nine Cooperative districts, meets four times per year to learn about the electric utility industry and Cooperative services, and review and provide feedback on Stearns Electric.

- Members are approved to serve on the committee by the Board of Directors.
- Both members of a joint account are encouraged to attend and participate in committee meetings.
- A light supper is provided at each meeting.

The member engagement group is responsible for the following:

- Learning more about the Co-op and the services offered.
- Act as a sounding board for proposals for new programs, and evaluations of existing programs.

INTERESTED MEMBERS CAN APPLY AT:
