

Custom Energy Rebates

VALUE FOR YOUR BUSINESS:

$$\frac{\text{PROJECT COST} - \text{INCENTIVE}}{\text{ANNUAL ENERGY DOLLAR SAVINGS}} = \text{NET PAYBACK}$$

HOW DOES IT WORK?:

Contact Stearns Electric Association's Energy Services department to discuss efficiency opportunities or for project pre-approval. The rebate value is determined by Stearns Electric and is based on demand (kW), energy (kWh) and annual hours of operation. Information required includes equipment name plate data, and manufacturer's specification sheets. Stearns Electric will be happy to determine the rebate value.

- The new/proposed energy efficient equipment must meet or exceed current city, state or federal energy code requirements.
- Products must maintain less than 20% harmonic distortion and have a minimum power factor of 90%.
- Power factor correction projects are not eligible.

WHO CAN PARTICIPATE?:

Any commercial or industrial member of Stearns Electric Association can participate.

WHAT YOU'LL RECEIVE:

Energy efficiency analysis from one of our energy experts and a rebate based on your qualifying idea.

WHAT YOU NEED TO DO:

1. Pre-approval of the rebate application is required.
2. The member is responsible for checking with Stearns Electric Association to verify funding availability and program parameters.
3. Stearns Electric will conduct an inspection of the project site prior to approval.
4. Installation must be complete before funds will be issued.
5. Invoices must itemize labor charges, quantity and price of the equipment installed.
6. Specification information must include manufacturer and model numbers for equipment included in the rebate request.
7. The maximum rebate amount is limited to 50% of the project costs, up to \$10,000.

CONTACT US AND START SAVING TODAY!

If you have any questions or need assistance in making these savings a reality for your business; please contact the Stearns Electric Energy Services Department at (800) 962-0655.

 Do you have your own brighter idea to save energy and cut your electricity usage?

APPLICATION CHECK LIST

- Rebate application with signature
- Itemized project invoices (labor & materials)
- Equipment specifications

The undersigned does hereby certify that the undersigned is solely responsible for the accuracy of the information contained in this application. All rules of the program have been followed and the installation is complete. The undersigned acknowledges that nothing contained in the application imposes any liability on Stearns Electric Association for the work performed and information presented by the member, member's engineer, contractor or vendor. The undersigned also authorized payment of incentive directly to the specified rebate recipient.

Rebate applications due no later than Friday, November 19, 2026.

WARRANTY INFORMATION

Rebate qualifications do not imply any representation or warranty of such equipment, design or installation by Stearns Electric Association. The Cooperative shall not be responsible or liable for any personal injury or property damage caused by this equipment. The Cooperative does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under this program. In no event shall Stearns Electric Association be liable for any incidental or consequential damages.

GENERAL PROGRAM RULES

1. Installation must be complete before application is submitted and funds are issued.
2. Members and vendors must submit itemized equipment invoices, rebate application and manufacturer equipment specifications. To ensure that the equipment installed meets Stearns Electric Association's performance standards, these invoices must itemize labor charges, quantity and price of the equipment installed, as well as information regarding the manufacturer and model numbers for all equipment included in the rebate.
3. Stearns Electric Association reserves the right to conduct random inspections of installations.
4. Rebates must be applied for within 12 months of invoice date.
5. Project must comply with all program specific rules and qualifications.
6. The member is responsible for checking with Stearns Electric Association to determine funding availability and to verify program parameters.
