

Replacement/Additional Dual Fuel Rebate Application

*Stearns Electric Association members who are adding or replacing an electric resistive heat load of **at least 9 kW** on an existing Dual Fuel load management program are eligible for a \$200 rebate.*

MEMBER INFORMATION:

Name _____ Account # _____

Address Where Equipment is Installed _____

City _____ State _____ ZIP _____ Phone _____

By signing this application, I certify that the equipment for which I am claiming a rebate has been installed according to the Cooperative's specifications at the address listed above, which represents a valid Stearns Electric Association account, and that the resistive load is active on the Dual Fuel Program.

Member Signature _____ Today's Date _____

EQUIPMENT INSTALLATION & DETAILS:

Type of Equipment ☐ Boiler ☐ Baseboard ☐ Plenum ☐ Other _____

Total Kilowatt (kW) Rating _____ kW (*must be 9 kW or greater*)

Backup Fuel Type ☐ Propane ☐ Natural Gas ☐ Fuel Oil ☐ Other _____

SYSTEM VERIFICATION:

- ☐ The resistive heating load is permanently connected to the Cooperative Demand Response Unity (DRU).
- ☐ The system has been tested for positive load control response (verified that the unit sheds load when the controller is activated).
- ☐ The backup heating source can heat the entire home/building during a required control period.

INSTALLING CONTRACTOR:

Contractor/Installer _____

Test Performed By _____ Date _____

Terms and Conditions:

- **Program Integration:** The heating equipment must be permanently installed and wired into the Stearns Electric Dual Fuel load management equipment.
- **Verification:** A successful load control test must be performed at the time of installation to ensure the utility can remotely manage the load.
- **Backup Requirements:** The backup system must be capable of maintaining temperature throughout the habitable structure without the aid of an electric heat source.
- **Inspection:** Stearns Electric reserves the right to verify the installation and wiring to the controller before issuing the rebate.

IMPORTANT:

- Rebate amount is \$200 per qualifying electric resistive heat load.
- The equipment must be installed within the Stearns Electric Association service territory.
- Submit completed rebate form, a copy of the **itemized dated sales receipt and invoice** to: Stearns Electric Association, 29643 Frontage Road, PO Box 816, St. Joseph, MN 56374.
- For questions, contact Stearns Electric Association at (800) 962-0655.
- **Rebate forms and receipts must be received within 90 days of purchase.**
- Please allow four to six weeks for rebate processing.
- Rebate(s) will be issued as a check.
