ENERGYWISE® PROGRAMS

In addition to agricultural rebates, we offer lower energy rate opportunities for our members enrolled in these EnergyWise® programs:

- Interruptible Program (with Generator Back-Up)
- Interruptible Irrigation Program

***For complete details visit stearnselectric.org/rebates.
For additional questions, contact Stearns Electric Association at (800) 962-0655.***

Stearns Electric Association offers both prescriptive and custom agricultural rebates to help offset the cost of energy-efficient upgrades. Prescriptive rebates apply to specific equipment types with set rebate amounts, while custom rebates are available for unique projects that fall outside of the listed categories.

Rebate amounts may cover up to 50% of the total project cost, with a maximum of \$10,000 per member, per calendar year. Custom projects require pre-approval and must demonstrate measurable energy savings. Members are encouraged to contact Stearns Electric's Energy Services department prior to beginning any custom project to ensure eligibility and discuss rebate potential.
